RIOC STOPS CROWN CASTLE WORK DUE TO SAFETY CONCERNS

Agency reviewing site safety plan

(August 26, 2019) - Please be advised that RIOC has ordered Crown Castle to temporarily suspend its AVAC while it reviews the company's safety plans. This review will involve the examination of the company's revised pedestrian, ADA and vehicular access procedures during construction. Today, Monday, the contractor will secure the site following last week's work. The contractor will not be permitted to resume work until RIOC's concerns about site safety are satisfied.

All businesses and property managers on Roosevelt Island are reminded that they must have all necessary city and state permits in place before work can begin. Please contact PSD or visit our permits page - <http://rioc.ny.gov/283/Permits> - for more information. If you see any unsafe conditions at any work site on Roosevelt Island, please contact PSD immediately at 212-832-4545 or report it by visiting our Occupant Help Center at <https://rioc.tikkrit.us/login>
